Introduction: In this project I am trying to create a new crypto currency named as G2 coin. This crypto coin will be based on blockchain technology.

Objectives: Here I am trying to make new crypto currency in which anyone can buy or transfer the crypto currency. An interface will be provided for these functionalities.

Problem Definition: Using our website everyone will able to buy or transfer the brand new crypto currency - G2 coin. An user can register or login to their account. They can buy crypto coin through online transaction. User will have a wallet, that will provide user's G2 coin balance. They can transfer G2 coin using wallet id.

Basic functionalities:
- Registration and login.
- Buy G2 coin.
- G2 coin wallet.
- G2 coin transaction.

Tools / Platform, Hardware and Software Requirements:
Languages: html, JavaScript, Solidity (Smart Contract Language)
